Our project vision is to create vibrant local, regional and European learning communities, fueled by Regional Learning Facilitators. We need new organizational concepts and ownership of issues and concerns from the crowd. Our approach lies in analogue and digital networking and support structures that take into account the value of informal networks. The key message of the project is:

**“When we share, we win”**

# COMMUNITY BUILDING

By learning communities, we mean forms of exchange and cooperation organized by ourselves or supported by the community, which ideally are supported by the involvement of education authorities. The Learning Communities deal with solutions to upcoming problems in everyday education, with challenges of the education system at different system levels, with the creation, exchange and further development of teaching materials, etc. The Learning Communities are also involved in the development of new teaching materials and in the development of new teaching methods.

## RESULTS

1	2	3	4
REPORT AND POLICY PAPER on the future vision on European cooperation in school education	An INNOVATIVE CURRICULUM for learning community facilitators	LEARNING MATERIALS for learning community facilitators	A UNIQUE MATCHING and COLLABORATION PLATFORM for regional learning peers

## TARGET GROUP

Our target group are teachers and their support network/educational framework. Our goal is to indirectly support the work of teachers and to facilitate the planning, implementation and follow-up of their lessons by focusing on the principles of cooperation and exchange. Through active networking, but also by pointing out connection possibilities, teachers should no longer have the feeling of being alone in the field but embedded in a professional system that also brings them more self-confidence and a sense of self-efficacy.

## GOALS

1	2	3
The TRAINING of 24 Regional Learning Community Facilitators.	At least 12 REGIONAL LEARNING COMMUNITIES in 4 European countries.	The creation of a European CROSS-BORDER LEARNING COMMUNITY.
4	5	
The development of a LEARNING COMMUNITY FACILITATOR CURRICULUM, which will later become a standard KA1 workshop offer.	The development of an AI-SUPPORTED PASSIVE NETWORKING PLATFORM for teachers and school stakeholders to test a further development option for eTwinning.
